

Emerging Website Design Company in Mississippi

Biloxi, MS (Zero 3 Computers) October 26, 2009 -- Zero 3 Computers is a Mississippi website design company who offer complete website design services including hosting, logo design, custom websites, and website maintenance. Zero 3 Computers are known around the nation with customers from New York to California.

With over 70% of the nation using computers to find local businesses Zero 3 Computers stepped up to meet the demand of small businesses who thought they could not afford their own website. Zero 3 Computers provide cheap, reliable hosting as well as custom website design to meet the needs of their clients. "Since our first customer almost seven years ago we have been expanding with new technology to keep our clients ahead of their competition," said Eric Oliver, Zero 3 Computers founder and CEO.

Zero 3 Computers have been in operation since 2003 when they first purchased www.zero3computers.com and have gained the confidence of customers ranging from small bands in New Orleans to large industrial companies in California. Although they are spread around the nation they keep close to their roots on the Mississippi Gulf Coast helping local businesses get started with a top of the line website on a small business budget.

When looking for a design company on the Gulf Coast you do not have many options, but one of the options you do have is proven, efficient, and always ahead of the competition. Zero 3 Computers truly sticks to their company slogan, "An Evolution of Your Computer" because whether you are buying a custom computer or a website you will see that your experience as well as your product is evolved above the rest.

Zero 3 Computers was established in 2003, hence the name, by Eric Oliver. Seven years ago they started out as a custom computer company that broadened their products to meet one of Eric's passions, website design. They have not looked back since and have steadily grown to become one of the nation's leaders in custom computers as well as website design.
